Our Country The Sketch Book of Geoffrey Crayon, Gent., commonly referred to as The Sketch Book, is a collection of 34 essays and short stories written by the American author Washington Irving. It was published serially throughout 1819 and 1820. The collection includes two of Irving’s best-known stories, attributed to the fictional Dutch historian Diedrich Knickerbocker: “The Legend of Sleepy Hollow” and “Rip Van Winkle.” It also marks Irving’s first use of the pseudonym Geoffrey Crayon, which he would continue to employ throughout his literary career.

The American Pageant “The Titan is a novel by Theodore Dreiser, completed in 1914 as a sequel to his 1912 novel The Financier.[1] Both books were originally a single manuscript, but the narrative’s length required splitting it into two separate novels.[2] Dreiser’s manuscript of The Titan was rejected by Harper & Brothers, publisher of The Financier, due to its uncompromising realism; John Lane published the book in 1914.[1] The Titan is the second part of Dreiser's Trilogy of Desire, a saga of ruthless businessman Frank Cowperwood (modeled after real-life streetcar tycoon Charles Yerkes). The third part of the trilogy, The Stoic, was Dreiser's final novel, published in 1947 after his death.”

AP* U.S. History Review and Study Guide for American Pageant 12th edition In this volume, Alex Zautra illustrates how experience with difficult or stressful emotional situations can, contrary to popular belief, be beneficial; for example, our ability to adapt to stress can be improved by experiencing difficult moments on emotional intensity. Zautra masterfully integrates research and theory on emotion and stress, identifying a unique and important role for stressful life events. He offers new insights into how stress and emotions can influence health and illness and demonstrates the wide applicability of this perspective across domains of love and marriage, work, aging, and community. By reviewing research on chronic pain, depression, child abuse, and addiction, Zautra also provides new insights into clinical problems.

Ten Nights in a Bar-room, and what I Saw There A New York Times Notable Book: A psychologist's “gripping and thought-provoking” look at how and why our brains sometimes fail us (Steven Pinker, author of How the Mind Works). In this intriguing study, Harvard psychologist Daniel L. Schacter explores the memory miscues that occur in everyday life, placing them into seven categories: absent-mindedness, transience, blocking, misattribution, suggestibility, bias, and persistence. Illustrating these concepts with vivid examples—case studies, literary excerpts, experimental evidence, and accounts of highly visible news events such as the O. J. Simpson verdict, Bill Clinton’s grand jury testimony, and the search for the Oklahoma City bomber—he also delves into striking new scientific research, giving us a glimpse of the fascinating neurology of memory and offering “insight into common malfunctions of the mind” (USA Today). “Though memory failure can amount to little more than a mild annoyance, the consequences of misattribution in eyewitness testimony can be devastating, as can the consequences of suggestibility among pre-school children and among adults with ‘false memory syndrome’ . . . Drawing upon recent neuroimaging research that allows a glimpse of the brain as it learns and remembers, Schacter guides his readers on a fascinating journey of the human mind.” —Library Journal “Clear, entertaining and provocative . . . Encourages a new appreciation of the complexity and fragility of memory.” —The Seattle Times “Should be required reading for police, lawyers, psychologists, and anyone else who wants to understand how memory can go terribly wrong.” —The Atlanta Journal-Constitution “A fascinating journey through paths of memory, its open avenues and blind alleys . . . Lucid, engaging, and enjoyable.” —Jerome Groopman, MD “Compelling in its science and its probing examination of everyday life, The Seven Sins of Memory is also a delightful book, lively and clear.” —Chicago Tribune Winner of the William James Book Award

The American Spirit: Since 1865 The extraordinary story of an indomitable 95-year-old woman - and of the most extraordinary century in Ethiopia's history. A new Wild Swans A hundred years ago, a girl was born in the northern Ethiopian city of Gondar. Before she was ten years old, Yetemegnu was married to a man two decades her senior, an ambitious post-post. Over the next century her world changed beyond recognition. She witnessed Fascist invasion and occupation, Allied bombardment and exile from her city, the ascent and fall of Emperor Haile Selassie, revolution and civil war. She endured all these things alongside parenthood, widowhood and the death of children. The Wife's Tale is an intimate memoir, both of a life and of a country. In prose steeped in Yetemegnu's distinctive voice and point of view, Aida Edmnarion retells her grandmother's stories of a childhood surrounded by proud priests and soldiers, of her husband's imprisonment, of her fight for justice - all of it played out against an ancient cycle of festivals and the rhythms of the seasons. She introduces us to a rich cast of characters - emperors and empresses, scholars and nuns, Marxist revolutionaries and wartime double agents. And through these encounters she takes us deep into the landscape and culture of this many-layered, often mist-characterized country - and the heart of one indomitable woman.
